

## THE BARTENDERS ACADEMY

FOUNDED BY: PETER CLAYTON

### Overview

Bartenders Academy enables its students and graduates to achieve greater success in their lives by expanding their vocational skill sets. We not only help to create and enhance bartenders, we inspire our community to pursue excellence, achieve success, and be awesome!!! We achieve these goals through our rigorous bartender training program and our intensive career counseling support. Our graduates have become top level managers, highest producing bartenders, bar owners, and more. More importantly our graduates have been able to achieve personal success by significantly improving their financial health, furthering their academic education, and supporting their families and loved ones.

### Background

**Peter Clayton** professional experience as an entrepreneur has provided him with the ability to turn ideas into solutions for his client's challenges. It is this same energy that drove his love for software development, the ability to use technology to solve today's most pressing problem. Expected to receive a Master of Science in Computer Science in 2022, here in the University of Bridgeport
